PROFILE and SKILLS

Motivated and hardworking student in my second year of studying Web Design and Development at Southampton Solent University. I have proven skills in teamwork, leadership and experience in problem solving that I have learned through my Air Cadet engagement. I have achieved excellent results in the development side of my course, getting 100% in Internet Technology, 92% in Client-side scripting and 83% in Introduction to databases.

I am seeking to further my professional experience in and help solve problems.

My work experience and participation to out of study clubs and societies have helped to establish my team player and leader skills, but am also able to work effectively independently. I am motivated to create and design to any specification and keen to learn new technologies and systems.

My skills and experience include:

- Web Technologies – HTML, CSS, Javascript, Foundation framework, Sass
- Databases – Oracle
- Design – Mobile first design, Responsive design, Progressive enhancement, Grid design, Digital media and photo editing
- Programming – Python
- Software experience – Windows (7-10), Excel and Office Suite, Adobe Photoshop, Adobe Illustrator, Adobe XD, Sketch, Paint.net, Notepad++, Sublime, Brackets, Cloud9 IDE
